

Prompts for Microsoft Bing's Image Generator

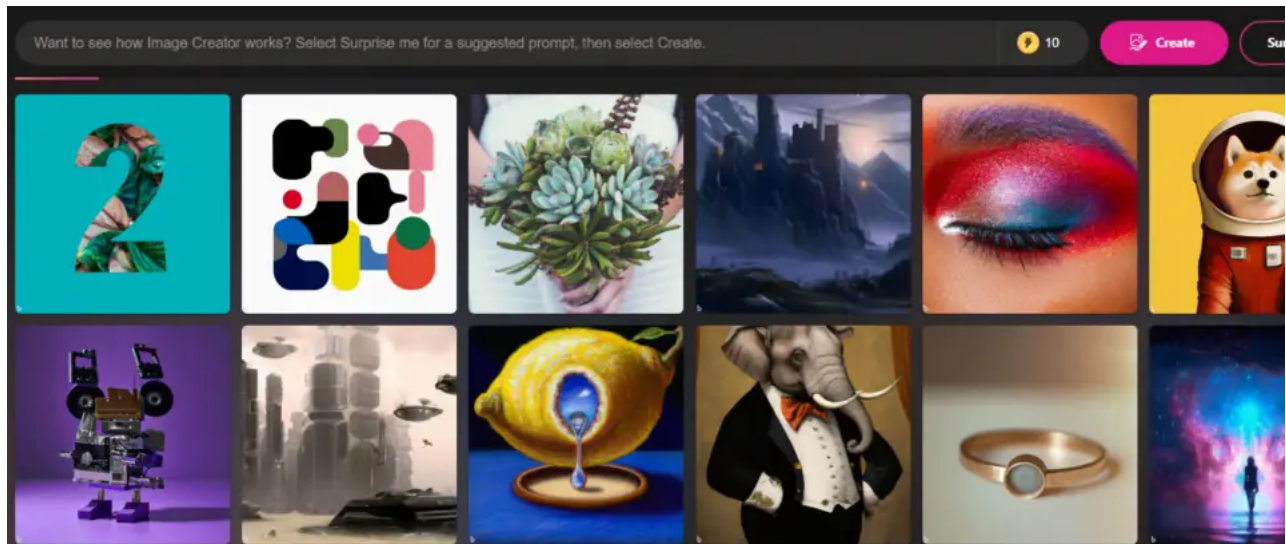

In this post, we'll explore what Bing's Image Creator is, how it's used, its launch details, and tips for writing better prompts. Finally, we'll provide a comprehensive and advanced list of 100 image prompts to inspire your creativity.

Bing's Image Creator: An Overview

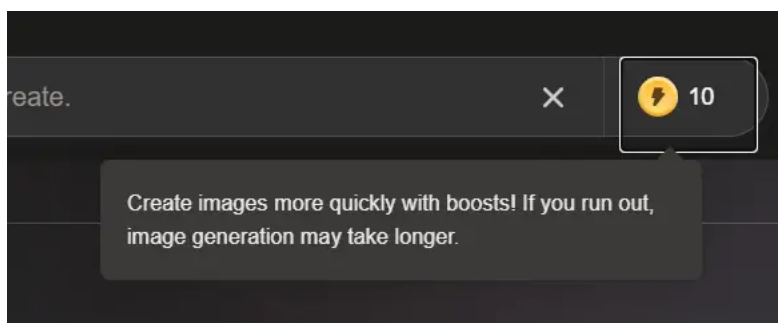

Launched by [Microsoft](#), [Bing's Image Creator](#) is a powerful tool that enables users to generate AI images using text prompts.

By entering a descriptive text input, the AI will produce a set of images that match the given description.

To get started, visit bing.com/create, where you can either sign up for a new Microsoft account or log into your existing one.

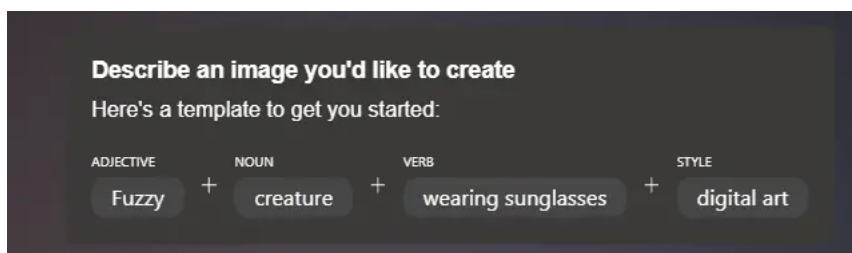

New users will receive 25 boosted generations for Image Creator.

Writing Better Prompts for Image Generation

To generate amazing images with Bing's Image Creator, it's essential to provide detailed and creative prompts. Bing suggests using a combination of adjectives, nouns, verbs, and styles to create more effective prompts.

Here's a template to help you craft better prompts:

Adjective (Fuzzy) + **Noun** (creature) + **Verb**(wearing glasses) + **Style** (digital art)

1. **Adjective** (e.g., Fuzzy)
2. **Noun** (e.g., creature)
3. **Verb** (e.g., wearing glasses)
4. **Style** (e.g., digital art)

The more specific and imaginative your prompts are, the better the AI-generated images will align with your vision.

You can check this guide for more information on [how to write better image generation prompts](#).

100 Ai Image Prompts You Can Use On Bing's Image Creator

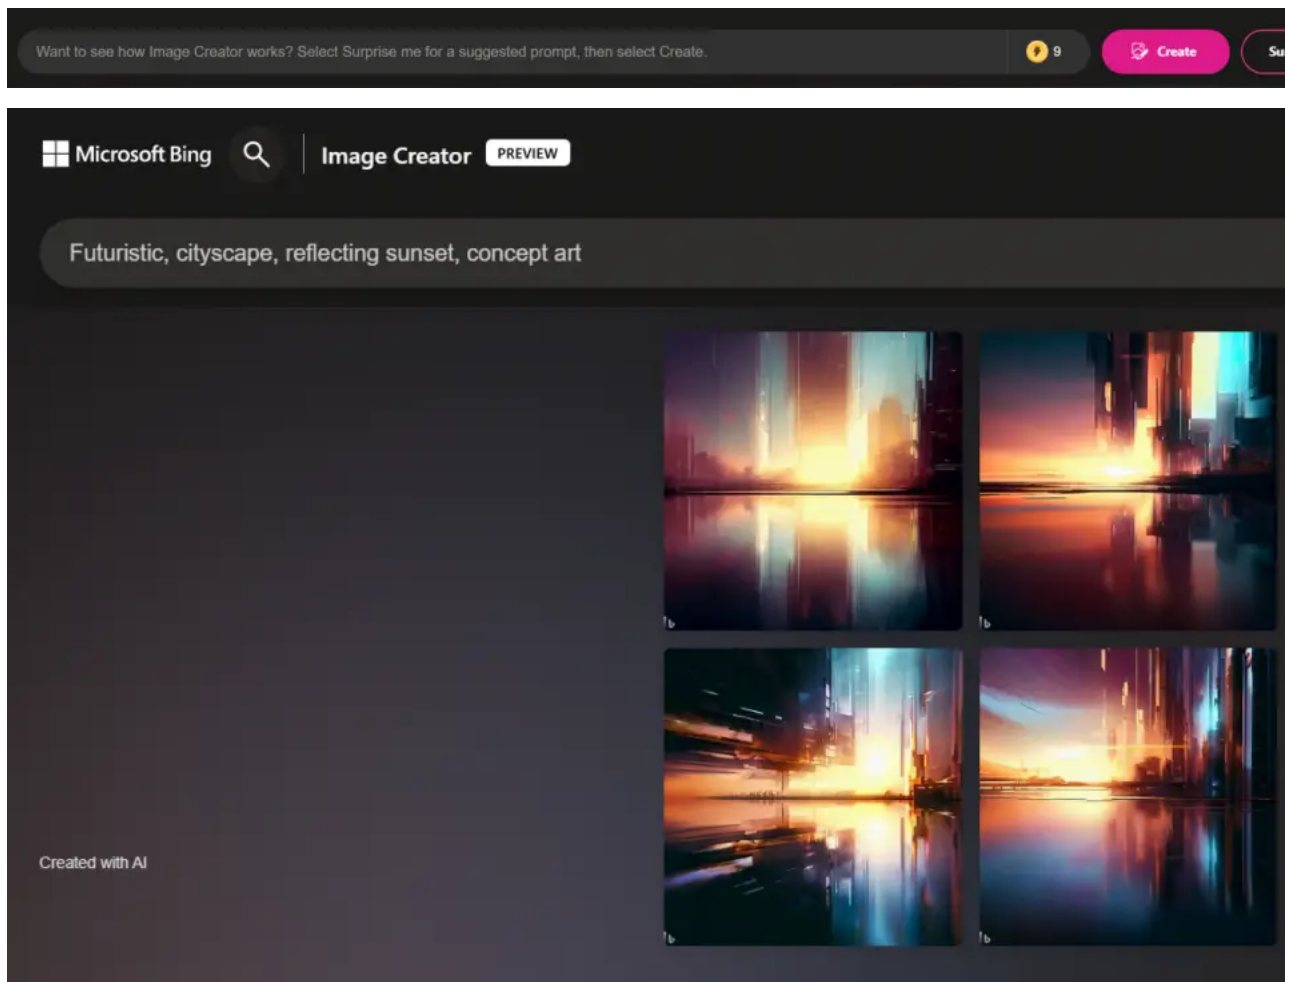

Write your prompts in the prompt writing bar, and then select create. You will be given 4 images on the basis of your prompt and don't worry if you're out of boosts. You can still create images but it will generate a little bit slower.
